

Towards a World Film Movement

Follow the journey of a group of armed forces veterans and warrior hearted filmmakers as they unite to bring about a World Film Movement

Our Reasons Why

Because there is no other medium as powerful as film for giving a voice to the voiceless, entertainment to the masses and telling the stories which speak of our times. Because an untapped reservoir of talent exists in the form of writers, actors, and filmmakers, all yearning to contribute that talent to the world. Because no model currently exists to bring that talent to light, therefore it is up to those to whom it matters the most to create one which will.

The Fires we're Starting . . . documentary follows our journey as we take to the path like warriors to create such a model. A model in the shape of a new **World Film Movement.**

Watch the company reel from **Wild Frontier Productions**, who have donated multiple screenplays to the cause

The Filmmaker as Philanthropist

Watch the founders of **The Joining Forces Campaign** talk about the making of the **Thin, Brittle, Mile** AudioMovie. And their determination to bring the harrowing story of a soldier, going through his greatest battles on his return home, to an audience as a film.

'NO ONE WANTS TO HEAR ABOUT A SOLDIER WITH GRIEF INSIDE HIS BONES.'

Listen to an excerpt of Simon Callow's narration from the Thin, Brittle, Mile AudioMovie

www.joiningforces.club

THERE GOES THE CHILD. THERE STANDS THE MAN.

A Voice for our Youth

While finding an audience for their own story, our veterans are doing what soldiers do best - looking after others. **Age of Decent** is the poignant and powerful story of how the knife crime epidemic and other issues affect our younger generation.

[Read more about Age of Decent](#)

Via the **Great British Challenge** veterans and filmmakers will be raising funds to produce a charity based AudioMovie of Age of Decent.

Both AudioMovies for Thin, Brittle, Mile and Age of Decent will donate all profits to charities supporting the issues at their heart.

Read **Walking with Warriors** to see how you can be part of this journey.

The Filmmaker as Entrepreneur

Supported by one of the UK's leading blue-chip organisations and film financiers, we're turning to the industry to bring together cast, crew, producers, and distribution for a series of commercially viable horror films under the **Glass Darkly Films** mantle.

All **Glass Darkly Films** will employ veterans alongside filmmakers to help grow the Joining Forces initiative and demonstrate the storytelling talent of new filmmakers.

The Filmmaker as Documentarian

The Strongest Among Us

The stories of those who never gave up, with pictures from a soldier who never will

Giving a voice to the voiceless, *The Strongest Among Us* provides a platform for quiet heroes who have come up against extraordinary hardships, survived, and whose shared experiences can encourage and inspire us all.

[Read more about The Strongest Among Us](#)

The Filmmaker as Warrior

Sometimes, despite every effort, the filmmaker must find their own way to bring their projects to light.

The Ricia-Ann Agreement is a contractual arrangement allowing filmmakers to unite, pool resources, and work without the fear of exploitation or a lack of care for their safety or welfare.

The Only AudioMovie

Based in America, an AudioMovie of the Glass Darkly film *The Only* will be the first production made under the Ricia-Ann Agreement.

Read *The Only's* first three chapters.

The Filmmaker as Storyteller

The World Writers Showcase

The World Writers Showcase is a festival for screenwriters and novelists, where work can be promoted, deals with publishers, agents and production companies can be made, as well as the option to be part of our own publications list. Along with our own four books, we're looking to find and champion the four most remarkable fiction and nonfiction books of others.

fires
we're
starting...

*When there's nothing left to burn
you've got to set yourself on fire.*

The Filmmaker as Traveller...

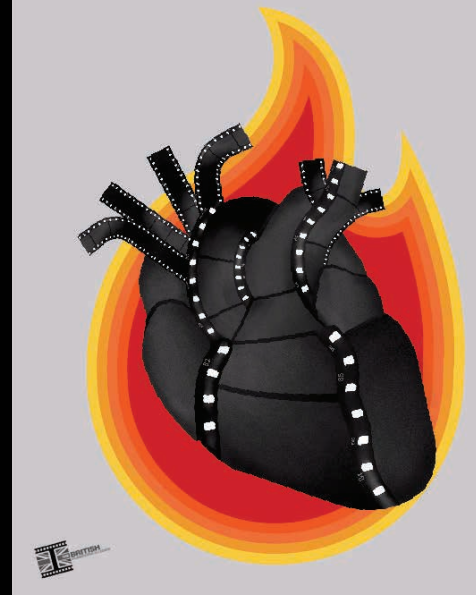

'We shall either find a way or make one.' Hannibal

The first **World Film Showcase** brings together all elements of our work and forms the model for **The World Film Movement**.

To set one last precedent and close Fires we're Starting . . . , veterans, filmmakers, industry figures and our youth come together to make **Youth Anthem**, a song and accompanying video, echoing the sentiment of Age of Descent.

Watch the last time we did this with the short film **Love of Words**

Proceeds from Youth Anthem will support the Age of Descent charities.

Watch Love of Words

. . . on a Journey that's ending cannot be Known

The final message which closes Fires we're Starting . . . is an invitation to filmmakers and actors everywhere who would like to be part of **Drowning Room Only** and **No Visible Scars**, the first two films made under the Ricia-Ann Agreement in the spirit of the new World Film Movement and help prove the model's validity and pave for the way for more filmmakers and actors to take to the path like warriors themselves and bring their own work into fruition.
